**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/26/05 has been entered.

***Terminal Disclaimer***

2. The terminal disclaimer filed on 9/26/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,684,268 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Claim Objections***

3. Claims 26,44,57,61 objected to because of the following informalities: the identified claims contain extraneous punctuation marks either in the middle of the claim or at the end. Applicant is advised to carefully review all pending

Art Unit: 2182

claims and correct any grammatical errors. Appropriate correction is required.

### *Double Patenting*

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., In re Berg, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); In re Goodman, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); In re Longi, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); In re Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 1-14, 17-59, 61, 62, 64, 65, 67-71, 73, 74, and 76-78 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,684,268. Although the conflicting claims are not identical,

Art Unit: 2182

they are not patentably distinct from each other because the claim 1 of Patent No. 6,684,268 contains every element of the identified claims of the instant application and as such anticipates the identified claims of the instant application.

"A later patent claim is not patentably distinct from an earlier patent claim if the later claim is obvious, or **anticipated by**, the earlier claim. In re Longi, 759 F.2d at 896,225 USPQ at 651 (affirming holding of obviousness-type double patenting because the claims at issue were obvious over claims in four prior art patents); In re Berg. 140 F.3 at 1437, 46 USPQ2d at 1233 (Fed. Cir. 1998) (affirming a holding of obviousness-type double patenting where a patent application claim to a genus is anticipated by a patent claims to a species within a genus)."

ELI LILLY AND COMPANY v BARR LABORATORIES, INC., United States Court of Appeals for the Federal Circuit, ON PETITION FOR REHEARING EN BANC (DECIDED: May 30, 2001).

#### ***Duplicate Claims***

6. Applicant is advised that should claim 31 be found allowable, claims 39 and 49 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. The same relationship exists between claims 35 and 53. When two claims

Art Unit: 2182

in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).
